THE JOURNAL OF ELECTRON MICROSCOPY SOCIETY OF THAILAND
(J.E.M.S.T.)
AN OFFICIAL PUBLICATION OF ELECTRON MICROSCOPY SOCIETY OF THAILAND

1. SCOPE:
The Journal of Electron Microscopy Society of Thailand will publish papers on both theoretical and practical electron microscopy and its related science. Papers dealing with technical and applied electron microscopy, Transmission (TEM) and Scanning electron microscopy (SEM), in biology, medical science, material sciences, etc., are welcome. All papers submitted will be reviewed by the editorial board and particularly by the experts in the subjects. Papers will be published in English only. Preliminary technical notes and letters to the Editor commenting on papers in the Journal will be considered for publication. Topical and special reviews are generally by invitation only.

Submission of a paper will be taken to imply that the material is original, that it has not been published before and that it is not under consideration for publication elsewhere.

2. SUBSCRIPTION INFORMATION:
Subscription rate is 25.00 US Dollars per volume (2 issues) including surface mail postage and handling. Subscriptions are entered with prepayment only. Mail your order to:

Editor-in-Chief
J.E.M.S.T. (Thailand)
Faculty of Science and Technology
Thammasat University at Rangsit Center
Pathumthani 12121, THAILAND.

INSTRUCTIONS TO AUTHORS

A. INSTRUCTIONS FOR PREPARATION OF PAPERS
The papers submitting for an inclusion in the Journal of Electron Microscopy Society of Thailand (J.E.M.S.T.) should conform to these instructions given below:

1. MANUSCRIPT PREPARATION. Type paper in double spaced format on standard size (8 x 11 inches or A-4) paper and submit in duplicate. Each of the following sections requires a separate page :- TITLE PAGE, ABSTRACT AND KEY WORDS, TEXT, ACKNOWLEDGEMENTS, REFERENCES, TABLES AND FIGURES (ILLUSTRATIONS), and LEGENDS FOR FIGURES.
Papers should be numbered consecutively, beginning with the title page.

2. TITLE PAGE. This page should include full name of all authors; name of the institution and department in which the work is carried on; name and address of author to whom correspondence should be sent; short title or running title consisting of no more than 50 characters.

3. ABSTRACT & KEY WORDS. An abstract of 150-250 words is required and should appear on the second page. It should be concise and include the purpose of the study, brief methodology, the main findings, and the principal conclusions. Just below the abstract, 3 to 10 key words (or phrases) suitable for subject index should be given.

4. TEXT. The text of research articles is divided into sections with the headings Introduction, Materials and Methods, Results, and Discussion respectively. SI units and standard symbols and abbreviation should be used. The text of reviewed paper should conform to the international format.

5. ACKNOWLEDGEMENTS. It contains mainly the names of persons who have made important contributions to the study. Financial supports can be included.

6. REFERENCES. Include only references relevant to papers which are either published or in press. References are consecutively numbered (in parenthesis) in the text. At the end of the article the full list of references is started on the new page and this should be given in the following order depending on the sources, i.e. journals, text, or book etc.

(a) From the journal, this following order should be given: author(s) last name, first and middle initials of all authors; title of paper. Journal title (in standard abbreviations); volume (with underline); first and last page numbers (exclusive page), and year published.

Example (references from journals):

(b) From the book: it should be started with the author(s) and followed by the title of a chapter. Book title preceeded by editors (if available), publisher, place of publication, exclusive pages, and year.

Example (references from books):

7. TABLES AND FIGURES (ILLUSTRATIONS)
Number each table and figure with an Arabic numeral and refer to them in the text sequentially. Each table must have a brief title and a footnote if necessary. Each figure or E.M. photo must have a caption or legend which should be grouped and typed separately.

High quality glossy, black & white, labeled, photographic prints and negatives are required, usually 14.5 cm wide (left to right margins) by no more than 22.0 cm, high (vertical measurement). Each E.M. photo should have an indication of magnification by the use of a bar representing distance in meters system, i.e. mm (nanometer, μm (micrometer) on the bottom left of the photo whereas the figure number locates on the bottom right corner.

8. LEGENDS FOR FIGURES. They should be typewritten (double-spaced) on a separate sheet with Arabic numerals corresponding to the figures.

B. SUBMISSION OF PAPERS
A covering letter and two complete sets of the manuscript should be sent to:-

Editor-in-Chief (Prof. Dr. Waykin Nopanitaya)
J.E.M.S.T. (Thailand)
Faculty of Science and Technology
Thammasat University at Rangsit Center
Pathumthani 12121, THAILAND.

C. REPRINTS
Fifteen copies of all types of communications will be provided free of charge to the author. Additional copies may be ordered at cost price.
SPI Supplies is the Source
For the Best in Electron Microscopy Supplies

INSTRUMENTS

- SPI-Module™
  Sputter/Carbon Coating System
- Plasma Prep II™
  Optional End Point Detector
  now available
- SteadiCool™
  Water Coolers

TEM Chemicals & Embedding Kits

- Low Acid™ GMA and HPMA Kits
- SPI-PON 812™ Kit
- Araldite 6005 Kit
- L R White Resin Kit
- Many more!

CLEANING AIDS

- Bell Bright™
- SPI-Wipers™
- SPI-Duster™
- SPI Polywipers™
- RBS-35
- Precision Cleaning Agent

SPI Reagents for
Immunelectron Microscopy,
including Colloidal Gold
and Protein A

DUSTERS/14 oz.

- New! 3-way adjustable “Easy Duster”
- Filter Nozzle Systems
- Falcon “Dust-Off II” Systems
- Flexible Extension Nozzles
